# Exploring Sexual Assault Experiences & Access to Resources Among UCLA Students with Disabilities

Jessica Persano  
UCLA Fielding School of Public Health

---

# CONTENT WARNING

This presentation will discuss sensitive topics such as sexual assault (SA), sexual harassment (SH), rape, and trauma

---

**Sexual violence is a  
pervasive public health  
issues on college campuses  
across the United States**

---

# Background & Literature

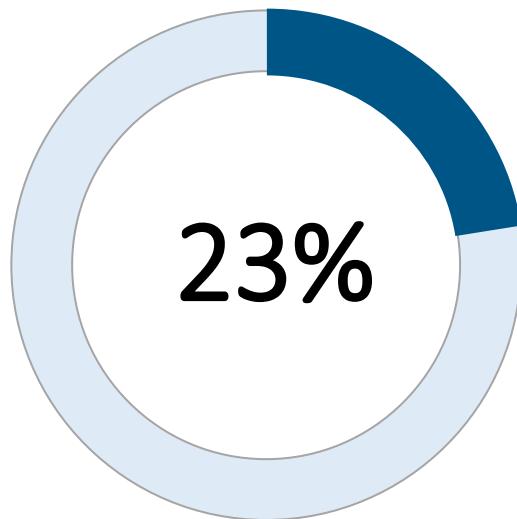

---

- **26.4% & 6.8%**
  - % of female and male undergraduates, respectively, who experience SV
- **13.9 miles**
  - Average distance that UC students must travel to the nearest rape crisis center or hospital
- **67%**
  - % of students that do not know about post-assault resources and policies at their university

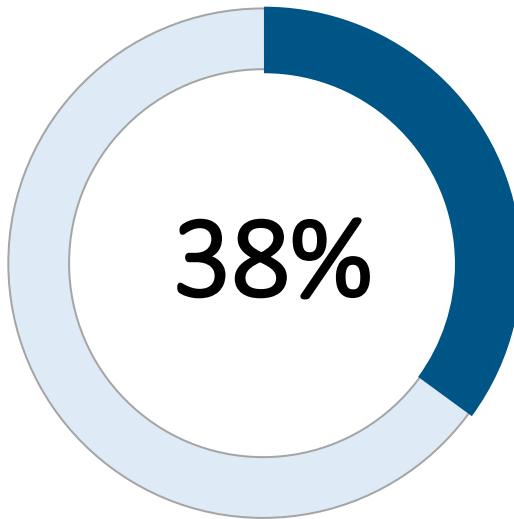

---

# Knowledge of SV Resources at UC Campuses

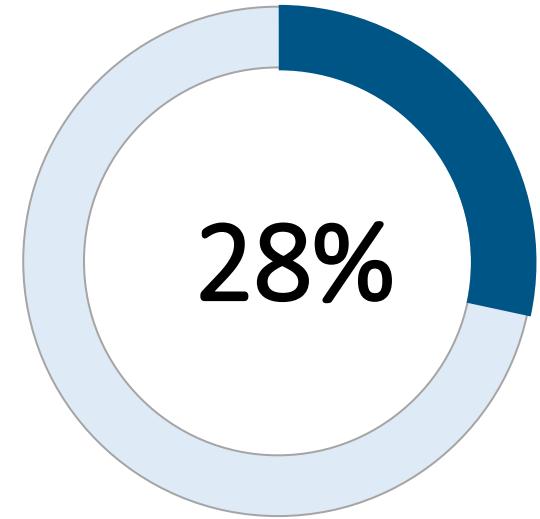

---

% of students who do  
not know what the  
Title IX office does

% of students who  
have never heard of  
the CARE office

% of students who  
have never heard of  
the CAPS office

# Gap: Students with Disabilities

---

Students with disabilities experience SA/SV at **excessively high rates**, but their experiences are ***under-researched***

- **51%** of students with disabilities report sexual victimization while at their university
- **71%** of people with disabilities who experience one or more type of lifetime SA

# Research Question

---

**To what extent are UCLA student survivors with disabilities able to access relevant resources in the aftermath of sexual assault/violence?**

- Perceptions and experiences of SA/SV
- Barriers and challenges in accessing support
  - Role of institutional policies & practices
- Recommended improvements in accessibility & usability

---

# Resources of Focus

---

- **UCLA C.A.R.E**
  - Campus Assault Resources & Education Office
- **UCLA C.A.P.S**
  - Counseling and Psychological Services Office
- **UCLA Title IX Office**
  - Receives reports of center discrimination, including instances of SH/SA/SV
- **Santa Monica Rape Treatment Center**
  - Free service that offers medical care, forensic services, advocacy, and counseling for survivors

---

# Parent Study

---

## Survivors' Experiences with and Recommendations for Improving Responses to Sexual Violence at UCLA

- Parent study population: *all UCLA students* who have experienced sexual assault/violence while at UCLA

# Methods & Data

---

## Methods: 20 in-depth interviews

- 60-90 minutes each
- 1 on 1
- Ask participants about
  - SA/SV experiences
  - Resources utilized
  - Recommendations

## Eligibility Criteria

- 18+
- Has a disability
- Experienced SA/SV while a UCLA student

*\* Recruitment based on diverse demographic and educational characteristics (ex: sexual orientation, gender identity, transfer status, etc.)*

---

# Data Analysis

---

**Thematic Analysis:** analytical method used to identify, analyze, and interpret patterns of meaning from interview data

1. Data Transcription: audio -> written text
2. Data Coding: themes, patterns, outliers
3. Analysis of Patterns & Insights: analyzing relationships

# Preliminary Results

---

Consistent trends of accessibility issues regarding...

- 1. Awareness & Education** particularly regarding confidentiality
- 2. Cost & Finances** especially for those with private insurance
- 3. Reporting & Police Involvement**

*Note: this study is still ongoing*

---

# Project Implications

---

- 1) Contribute to existing literature, focusing on a highly affected but **under-researched population**
- 2) Reduce disparities and provide avenues for **targeted improvements** in post-assault resources across the UC System
- 3) Inform future policy** change to ensure accessibility and usability of post-assault services at all college campuses
